## FEATURED FANCY BEER

"Li'l Citra"

Pipeworks, 16oz

11

*After meeting each other while working at West Lakeview Liquors, Gerrit Lewis and Beejay Olson decided it was time to open a brewery of their own. After an inspirational trip to Belgium and a successful Kickstarter, Pipeworks Brewing Co. was born. The brewery opened in late January 2012 and began brewing extremely unique, small batch beers. They quickly gained a cult following in Chicago that first year. So much so that in January 2013, RateBeer named them "Best New Brewery in the World", and they haven't looked back since. Lil' Citra is a very drinkable juicy IPA that excels in the aroma department while also offering some good depth of flavor.*
